## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 4,943,161 to Michaelis et al for the reasons as set forth in the last Office action.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 4,943,161 to Michaelis et al for the reasons as set forth in the last Office action.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 4,943,161 to Michaelis et al as applied to claim 1 above, and further in view of USPN 5,811,753 to Weick et al for the same reasons set forth in the last Office action.

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 5,811,753 to Weicke et al in view of USPN 4,943,161 to Michaelis et al for the same reasons as set forth in the last Office action.

***Response to Arguments***

Applicant's arguments filed July 11, 2005 have been fully considered but they are not persuasive. Applicant argues that the beam splitter is used differently in the Michaelis disclosure. This argument is not persuasive. All features of the apparatus are present in the Michaelis disclosure including decoupling means. Intended use of the decoupling element does not impart patentability to the apparatus.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

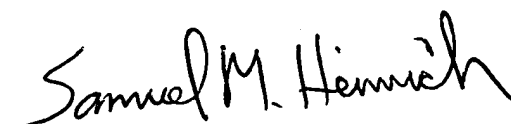

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
